MEMBERSHIP HAS ADVANTAGES!

Welcome to the Neighborhood Technology Resource Center! We are bringing **high speed Internet access** and **computer resources** to Chicago's West Side. Membership with the NTRC is both a personal and community investment. Membership benefits provide you, your family or organization with access to a range of computer training courses, black and white and color printing, digital imaging, special programs, and professional business services. We welcome youth, adults, families, seniors, local organizations and businesses to take advantage of NTRC resources and programs.

MEMBERSHIP IS AFFORDABLE!

Compare NTRC prices to other technology training centers and find out how much you're saving! NTRC membership packages – **Platinum, Bronze or Silver** – offer a range of products and services to you, your family or organization. Depending on your membership package, you'll have access to **FREE** computer courses, resume packets, color and black and white copying services and have **UNLIMITED** access to the NTRC's computer lab. **There are no session or computer usage fees, unless you choose daily or hourly packages.** Economic hardship is also taken into consideration. Scholarships are available with proof of economic need upon completion of a Financial Aid Application, with proof of income, explaining your current economic situation. **NTRC BUSINESS XPRESS™** offers the most affordable and discounted business services in Chicago's West Side. We offer everything from faxing to laminating to office equipment rentals (deposit required). Membership is not required to take advantage of our business services.

MEMBERSHIP MAKES YOU MORE TECHNOLOGY SAVVY!

NTRC members are automatically enrolled in a **FREE** class introducing them to computers as part of their membership. Other NTRC computer courses have a general fee that includes course materials. **Average cost of basic computer courses is \$12.00.** Professional certification and specialty training courses have different fees assigned to them. Course tuition is due one week before the first day of a course. All courses are on a first come, first serve basis. Courses require a minimum enrollment of five people. Scheduled courses that do not meet this requirement will be postponed or cancelled and a credit will be provided. Course tuition is non-refundable and non-transferable if a person attends the first session; in other cases, course fees are transferable to upcoming NTRC course offerings. Course tuition is also not transferable to individuals, families or organization not listed on your specific membership.

MEMBERSHIP WORKS FOR YOU AND THE COMMUNITY!

All member fees, service costs and financial contributions collected at the NTRC are **reinvested** back into the center at 100% to cover general operating expenses, support new programs and provide NTRC scholarships to those in economic need. The NTRC is a 501(C)3 organization which makes all membership fees tax deductible. The NTRC also works with other local and citywide organizations to sponsor technology programs, training and/or special events. If your organization is interested in renting the facility for a special function, collaborating with us on a project that uses technology or using our facility for staff development, please contact us for more information. We also accept and appreciate your donation to the center!

THE NTRC IS A RESOURCE FOR THE NORTH LANWDALE COMMUNITY!
